

5 COSTLY MISTAKES

Construction Leaders Make That Kills Profitability

Join us for an information packed program, where you will learn about cost containment strategies, best practices, and tools used to become more profitable via risk management. If you're like most successful businesses, you need to cut expenses while increasing profitability. This program will help you attain these goals, in addition to reducing your business risk and operating expenses. Attendance is ideal for CEO's, CFO's, HR, Construction Leaders, and Safety Directors.

Tuesday, July 17, 2018

8:00 – 9:00 a.m.

Includes morning coffee

CFC ABC Office

651 Danville Drive, Suite 200

Orlando, FL 32825

Program overview:

- Case studies on creating sustainable growth
- 5 Mistakes leaders make that kills profitability
- Knowing blind spots that cost you money and profitability

If you have experienced:

- Frustration over fraudulent claims and lawsuits
- Losing work due to a higher experience modification factor
- Searching for predictable systems/strategies that deliver consistent results

You should attend this program!

Speaker: Rick Dalrymple is a nationally cited Forensic Risk Consultant. He is the CEO of RJD Risk Management and an owner of IOA Risk Services, a risk management and insurance brokerage firm whose clients serve a vast array of industries such as construction, manufacturing, hospitality, healthcare, retail, wholesale and professional sports teams. With over 40 offices coast-to-coast, his company has taught CEOs in over 50 industries how to lower the number and cost of insurance claims. He consults nationally with many CEOs, risk professionals and administrative executives on how to lower their "Total Cost of Risk". His 40,000+ hours of experience consulting are visible in the results his clients receive.
